Score: \_\_\_\_\_

## Needlework Score Sheet

Points Possible	4 (Excellent)	3 (Good)	2 (Fair)	1 (Poor)
<b>Overall Neatness</b>	Product is complete and cleanly finished	Product appears to be complete, but hasn't been tidied up (strings, dirt, etc.)	Product is not finished out well, appears to have been rushed in some areas	Product does not appear to be finished, tidied up, or clean
<b>Stitching</b>	Stitching (both machine and hand) are straight and consistent	Stitching is mostly straight and consistent. Errors present, but do not take away from overall project	Stitching has held the project together, but is not straight or consistent throughout	Stitching is inconsistent and rough.
<b>Suitability of Materials</b>	Materials chosen are appropriate to the project and it's functionality	Materials are appropriate, for the most part, but may not hold up as intended	Materials poorly chosen and not appropriate to the project	Materials chosen poorly, and appear damaged before use
<b>Design &amp; Difficulty</b>	Design appears both professional and challenging and is unique and appealing	Design is quality and somewhat challenging resulting in a functional product	Design is present, but not unique or functional and only mildly challenging	Design is lacking and/or not a functional product
<b>Color</b>	Colors used complete a professional appearance	Colors used are simple, but coordinate well	Colors are too simple or maybe only a single, simple color was used	Colors do not coordinate
<b>Total Possible Points (20)</b>
